

Job Title: School Gardens Program Assistant (Summer internship)

Organization: SPEC – Society Promoting Environmental Conservation

Founded in 1969, The Society Promoting Environmental Conservation (SPEC) is a non-profit charitable organization that develops and implements practical solutions for urban sustainability. Areas of work include local food security, zero waste, renewable energy and protection of local land and water resources. Visit www.spec.bc.ca for more information on SPEC's programs and initiatives.

Work tasks and responsibilities:

The School Gardens Program Assistant will work with the SPEC team to support the school gardens and the community groups that maintain the food gardens during the summer months by:

- Visiting the different school gardens to plant, weed, water and engage with community groups involved in garden maintenance.
- Developing blog posts and social media content to share what's going on at the gardens during summer
- Helping to evaluate the program's impact by working with survey results gathered during the school year.

The **School Gardens Program** (<http://spec.bc.ca/school-gardens>) is an initiative run out of 11 Vancouver schools with varying socio-economic and cultural composition. This year will see the programs 12th year as it continues to expand. It brings school children from Elementary to Secondary age and community members with various backgrounds, to work on a shared project that improves personal and environmental health. It engages participants and the community in a shared project that has them outside getting fresh air, learning new skills and sharing knowledge, producing and consuming fresh local organic produce and putting an environmental solution into practice with tangible results.

Skills development and career enhancement opportunities for student intern

The intern will learn and/or strengthen skills and knowledge in:

- Gardening and urban agriculture
- Community engagement
